

UNIVERSITY INSTITUTE OF LAWS PANJAB UNIVERSITY REGIONAL CENTRE, LUDHIANA

With a vision to provide quality education to students, to enable them to excel in the legal sphere, University Institute of Laws (UIL), has made its presence felt in the legal world ever since its inception in July' 2003. Since then, everyone is working hard to realize this vision by imparting not just learning, but value and ethics based integrated learning, since moral values can't be taught, they have to be caught. UIL has fulfilled a long cherished dream of having a Centre of Excellence in Legal Education in the Manchester of State of Punjab (Ludhiana) through Late Lala Lajpat Rai, Member of Rajya Sabha. Presently the institution imparts legal education through three courses, LL.M 2 year, LL.B 3 year and B.A. LL.B (Hons.) 5 year integrated course. The UIL have been established to serve as the pre-requisite of universalization of education in general and legal education in particular. On the whole, the objective of UIL is to equip the learners with the skills of eminent advocates, professionals and academicians. The future belongs to UIL because we believe in the beauty of our dreams.

ONE DAY INTERNATIONAL WORKSHOP ON INTERNATIONAL COMMERCIAL LAW AND ARBITRATION (30th August 2019)

After decades of being held hostage to State-centered ideologies, finally international commercial law has become more solution oriented not only in the field of law but also in international business investment and trade. Last few decades have proved that national states are becoming less important in the creation of international commercial law because the growth of regional organizations, non-state actors and international arbitration has played more influential role in its growth and development. The end of Cold War and the corresponding explosion of commerce between the nations have provided an impetus to internationalism in the law that was never witnessed before in the human history. There is more curiosity about the different solutions offered by the various respective domestic laws to the common problems of international commerce than ever before. The need for the development of international commercial law was felt because of various reasons like: divergent nation laws cause problems and ambiguities, modernization and facilitation of international trade, growth of regionalism like The European Union, The American Experience like NAFTA, rise of non-binding instruments like international conventions etc. Hence, there has never been a better time to be an international commercial law scholar than now.

The present One Day International Workshop is an endeavor to discuss, debate on some of the crucial areas of international commercial law which will include dialogues on, international investment laws, international commercial contracts, international commercial arbitration in countries like India, Bangladesh etc., relevance of Commercial Court Act in relation to commercial transactions. The workshop will provide a perfect opportunity for advocates, industrialists and other professionals to interact with think tank on crucial areas like commercial contracts, investment laws, solving commercial disputes through arbitration. It'll be a fruitful platform for the academicians to sharpen their academic skills by listening eminent speakers on recent trends in international commercial laws. For research scholars and students it'll be a golden opportunity to know about this new and emerging area of law in India as well as other parts of the world. It is hence a first of its kind endeavor in the City of Ludhiana, the industrial hub of State of Punjab, where professionals, industrialists, academicians and research scholars/ students will meet discuss and debate on international commercial law under one roof, that is, University Institute of Laws, Panjab University Regional Centre, Ludhiana.

There shall also be an exhibition of paintings on social issues at Multi-Purpose Hall, Panjab University Regional Centre, Ludhiana, by a NGO NavChetna on the same day. The objective is to bring awareness amongst people through art on various social issues like drug addiction, female feticide, child labour, malnutrition, and crimes against women and many more.
